### OUR MISSION

Delta, meaning change, was born out of our desire to create a platform to make a difference in the fight to protect our planet. We partner with organizations dedicated to making a positive impact on the environment such as cleaning up our oceans and reducing CO2 emissions.

Along with our enthusiasm for making delicious wines, we are also passionate about preserving our natural world and planet, and supporting organizations that are working against climate change. We donate a portion of sales from each bottle sold to our important partners the Surfrider Foundation and Cool Effects. Your belief in our wine, and your dedication to improving our environment has allowed us to give over \$40k in our first two years. Thank you for enjoying our wine and making the world a better place for all people present and future.
